Most shrubs and trees are being butchered and are extremely misshapen. Shrubs that can be salvaged should be allowed to grow out to see if they can return to natural shapes. Hedges should not be cut into rectangular blocks. Building Link should be opened up to allow residents to communicate with one another and to post items in a community marketplace and to post and share as much as possible.

Why are the renters not given the same orientation as the owners? We can always tell when new renters move in by the amount of garbage around the recycling bins - just ask Gerard.... Also, there are no instructions around the washing machines, people are putting powder in the top containers, which totally blocks the feeder. We also need to post reminders in the laundry room to pick up laundry in a timely fashion, there is a load of laundry left in a basket for over a week now.

I don't understand why the pawes were put in the back lawn and stop under the tree? Seems silly to me. I also think that the post important issue that was missed is the lack of proper window fittings and the amount of heat and air that is wasted due to the drafts created by these outdated and broken windows that are all over the building.
